DESCRIPTION

This 2017 BMW 1 Series 118d M Sport offers a rare find with its very low mileage of just 56,664 miles and a clear vehicle history check. As an M Sport variant, this hatchback is powered by a 2.0L diesel engine that meets Euro 6 emission standards. The vehicle is well equipped with the Driver Comfort Package, which includes rear parking sensors, and it also features front and rear Park Distance Control to assist with manoeuvring. For added convenience, the car comes with rain sensors that automatically activate the headlights, which are LED units for improved visibility. Connectivity is straightforward thanks to the Bluetooth hands free system with a USB audio interface.

This model stands out from similar vehicles by balancing performance with practical daily usability. It is capable of accelerating from 0 to 62mph in 8.3 seconds, providing a responsive driving experience. Beyond its performance, the car is designed for everyday life, offering a large boot space that provides plenty of room for luggage or shopping. Furthermore, it sits in a low insurance group, making it a sensible choice for those looking to manage their running costs without compromising on the quality associated with the BMW brand.
