DESCRIPTION

The 2019 BMW 2 Series Active Tourer 218i M Sport combines the practicality of a family vehicle with the refined engineering expected from the brand. This model is powered by a 1.5 litre petrol engine that meets Euro 6 emission standards, ensuring it remains compliant with modern environmental regulations. Inside, the cabin is equipped with several comfort and convenience features, including heated seats for both the driver and front passenger. The interior also features a gearshift lever with the M designation and a short shift action, while connectivity is managed through a Bluetooth hands free system that includes a USB audio interface.

This vehicle is designed to offer a balanced driving experience, achieving 0 to 62 mph in 9.3 seconds while maintaining low CO2 emissions. Practicality is a key strength, as the car provides a large boot space that is well suited for daily errands or longer trips. The driving experience is further supported by a rain sensor that automatically activates the headlights when needed, and rear parking distance control, which assists with manoeuvring in tight spaces. These combined features make the 2 Series Active Tourer a versatile choice for those who require a functional vehicle without compromising on the quality and technology associated with the BMW M Sport trim.
