DESCRIPTION

This 2023 Ford Focus ST-Line Vignale offers a modern driving experience, powered by a 1.0L petrol hybrid engine that meets Euro 6 emission standards. As a recent model, it combines the practicality of a well-regarded hatchback with the refined styling and equipment levels associated with the Vignale trim. The vehicle is designed to provide a balanced performance, capable of accelerating from 0 to 62mph in 9.0 seconds, making it a suitable choice for both daily commuting and longer journeys.

The vehicle is equipped with a range of features designed to enhance comfort and convenience, setting it apart from standard models. The Winter Pack includes heated seats and a heated steering wheel, which are particularly useful during colder months. Technology is central to the interior experience, featuring the Ford SYNC4 navigation system displayed on a 13.2in touchscreen, which supports Android Auto and Apple CarPlay alongside a premium branded sound system. Practicality is further improved by the Parking Pack, which includes parking assistance and a rear camera, while the Ford Key Free system allows for keyless entry and start. Additionally, the automatic headlights ensure visibility is managed without manual input, contributing to a more seamless driving experience.
