DESCRIPTION

This 2020 SEAT Ateca TSI EVO XCELLENCE Lux is a well maintained vehicle that has had only one owner from new. It is powered by a 1.5 litre petrol engine that meets Euro 6 emission standards, ensuring it remains compliant with current environmental regulations. The XCELLENCE Lux trim level offers a high specification, combining practical design with a refined driving experience suitable for a variety of journeys.

The vehicle is designed to offer a balance of performance and practicality, demonstrated by its ability to accelerate from 0 to 62mph in 8.5 seconds. Drivers benefit from a large boot space, making it a versatile choice for those needing extra room for luggage or shopping. The inclusion of the Convenience Pack, which features automatic headlights, works alongside the full LED headlights to improve visibility. Comfort and connectivity are prioritised through the panoramic sunroof and the Full Link system, which supports both Android Auto and Apple CarPlay. Furthermore, the adaptive cruise control system assists with maintaining a steady speed, while the low insurance group rating makes this model a sensible option compared to many other vehicles in its class.
