DESCRIPTION

This 2016 Vauxhall Insignia CDTi Elite Nav offers a practical choice for those seeking a reliable saloon. Powered by a 1.6 litre diesel engine that meets Euro 6 emission standards, this vehicle has been well maintained throughout its life, having had only two owners from new. Prospective buyers can also purchase with confidence, as the vehicle has passed a clear history check, ensuring there are no hidden issues in its past.

The Elite Nav trim is designed to provide a comfortable and convenient driving experience, featuring dual zone climate control and heated front seats to keep occupants at the ideal temperature regardless of the weather. Technology is well integrated, with Bluetooth audio streaming available for easy connectivity, while bi-xenon headlights and rear parking sensors assist with visibility and manoeuvring. Beyond these features, the vehicle stands out for its large boot space, which offers excellent practicality for luggage or shopping, and its low insurance group, which helps to keep ongoing running costs manageable compared to similar models in its class.
