DESCRIPTION

The 2017 Volvo V40 D2 R-Design is a practical hatchback that combines Scandinavian design with efficient performance. Powered by a 2.0 litre diesel engine, this model meets Euro 6 emission standards, ensuring it remains compliant with modern environmental regulations. The R-Design trim adds a distinct style to the exterior, which is complemented by LED headlights that incorporate day running lights and automatic activation for improved visibility. Inside, the cabin is equipped with electronic climate control, including a pollen filter to maintain air quality, and a Bluetooth handsfree system for convenient connectivity while driving.

This vehicle is designed with efficiency and practicality in mind, offering a fuel economy of 79 mpg and low CO2 emissions, which helps to reduce running costs. It also sits in a low insurance group, making it an economical choice for a wide range of drivers. The V40 provides a balanced driving experience, capable of accelerating from 0 to 60 mph in 9.8 seconds, while the large boot space ensures there is plenty of room for luggage or shopping. These combined features make the V40 a sensible and well-rounded option for those seeking a reliable daily vehicle.
